

HOWDEN

Cyber+

Disrupting cyber insurance to drive change and choice

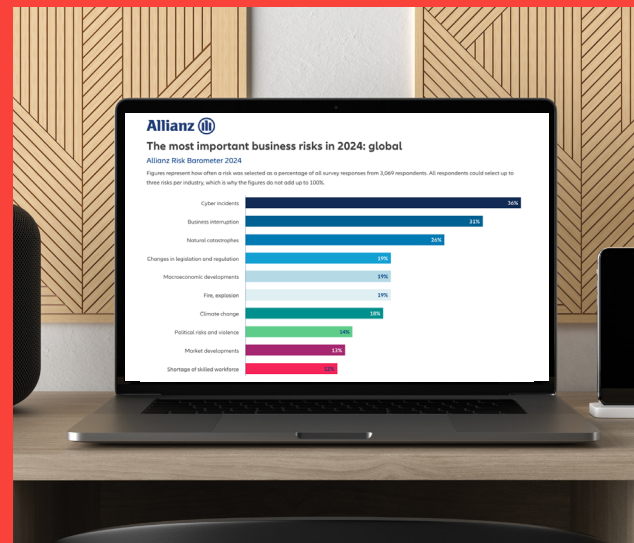

Over 80% of ransomware attacks target companies with revenue up to \$500m, and cyber threats are growing increasingly sophisticated. Taking proactive steps to put the right cyber coverage safeguards your operations, enhances resilience, and supports growth.

With Cyber+, secure a quote for top-tier cyber protection by answering just four quick questions. In minutes, your business will be protected against current and emerging online threats.

Why Cyber+ can give you a competitive advantage

- Cyber+ plus is designed with cutting edge policy wordings, reviewed and endorsed by Howden's expert underwriters to deliver best in class terms, with no sub limits on key covers.
- Cyber+ includes 24/7 crisis support from cyber experts, if your business does suffer a cyber attack.
- As part of Cyber+, we'll deliver proactive risk guidance designed to help you take active steps to protect your business, against both current and emerging threats.

No tedious proposal forms, no endless paperwork. Just four quick questions to specialist business cyber insurance. That's it.

That's Cyber+

What's included in Cyber+

If you're a business up to \$500m year revenue, Cyber+ can give you quick, effective protection against both targeted attacks and unintentional cyber outage.

What's covered?

Crisis management

- 24/7 crisis panel support – access our cyber team anytime, before during and after an incident
- Court attendance, PR costs and subsidized IT risk management

First party costs and expenses

Cyber+ can help you protect your business against financial losses arising from a range of areas, including:

- Incident response costs (forensics, credit monitoring, PR, notification)
- Cost to repair
- Business interruption
- Increased cost of working
- E-theft (virus/hacking)
- E-extortion

Third-party liability

- Cyber liability
- Privacy liability
- Media liability (online only)
- Regulatory investigations and fines, where insurable

The price of doing nothing is just too high

"With over 80% of ransomware attacks targeting companies up to \$500M in revenue, now is the time to act. Cyber+ is an effective, quick way to enhance your cyber protection and boost your company's resilience."
